

## Ideal Candidate

We are looking for a **Medior/Senior PHP Software Engineer** to join our software team, located in Amersfoort, The Netherlands.

## Job description

As a Software Engineer, you are expected to quickly learn and understand our SmartView/API application and its architecture. You will share your knowledge and use your proficiency to further develop SmartView. You will be programming extensively taking the system's architecture into account. As senior software developer, we expect you will clearly communicate architectural improvements, technical risks, performance trade-offs, and other technical aspects amongst the team.

You will also work on our automated build pipeline in Jenkins (our tool for CI), and further extend our means to deliver software updates and upgrades in line with our agile development approach. In practice, we expect you to spend approximately 80% of your time on architecture and development, and 20% on improving our software development approach, for example by further automating (functional) tests and optimizing the build pipeline.

In this role you will report to the Head of Software.

### WE'RE LOOKING FOR A PERSON THAT HAS:

- Very good skills in PHP and frameworks (preferably Zend Framework or Phalcon) and MySQL
- Good understand of technologies and standards as JSON, API, Composer, etc
- Doesn't see writing unit and functional tests as optional
- Good skills about some frontend technologies as generic Javascript, jQuery, HTML and CSS.
- Proeficient in English, both verbal and written. Additional language skills in Dutch and/or German would be beneficial.
- Very good interpersonal skills.
- Knowledge and work experience in a Agile environment.
- Knowledge with cloud services as Amazon AWS would be an advantage.

### WHAT DO WE OFFER

- Dynamic, captivating and challenging work environment, with plenty of room to contribute and influence the future development of the group and the SmartView application.
- International work environment, working directly with our Swiss-based head office and a global customer base.
- 25 days of holidays
- A salary range of €3000-3700 bruto/month for a medior position, €3700-4500 for a senior.
- Good central location, our office being convenient located at about 10 minutes walk from the main central station.

## THINGS TO CONSIDER BEFORE APPLYING

We encourage everyone that thinks it's a match to apply. However, there are some pre-consideration to this:

- Valid working VISA for NL
- A reasonable commuting time (everything above 1 1/2h one way could be already too much)
- Any side projects, samples of previous work that can be directly checked are encouraged and it will be considered advantage.

## Company details
